

What we do

A pre-submit claims audit for clinics. We run your claims through an auditor before they go to the payer, and flag the ones that would otherwise come back underpaid or denied.

- **Pre-submit claims audit.** We check every claim before it goes out the door, not after.
- **Catches missed charges, missing modifiers, and coding errors** that drive underpayments.
- **Dashboard review with accept or dismiss per finding.** You stay in control of what gets changed.
- **Flat monthly fee.** No per-claim charges, no surprise bills at the end of the month.
- **30-day free pilot.** No commitment, no contract. You can walk away at the end of the month.
